

Cookie Statement – Moove Connected Mobility B.V.

Moove uses cookies and stores technical information. Cookies are small files which are stored on a user's device (e.g. computer or smartphone). This concerns for example:

- IP address of the visitor;
- Date and time of the visit;
- URL of the referring site (the site from which the visitor came);
- The pages visited on our website;
- Information about the browser used (type and version, operating system, etc.).

We use technical information and cookies to facilitate your visit to the website, to improve the performance and user experience and to increase the relevance of the offerings on this website. Cookies can be placed both by us and by other parties with whom we work.

Below you will find an overview of types of cookies that are used.

Functional cookies

These cookies are required for the website to function properly and provide a requested service. Such cookies are used to save certain user and preference settings, to save any login details, and to optimize the user-friendliness of the website. Temporary data is stored to display pages faster and to see if a user is logged in.

Analytical cookies

These cookies are used to collect information about the use of the website. One of the tools used is the Google Analytics software. These cookies register, among other things, the number of website visitors, the pages visited and the duration of their stay. The collected data is used to improve the service and to optimally adjust the content of the website to the wishes and needs of the users.

Tracking or advertising cookies

The following cookies are used to collect data on the (internet) behaviour of the user of the website. These tracking cookies are used to enable the user to make optimal use of our website. For example, these cookies are used to record information about the visit so that relevant information can be used on a subsequent visit for the convenience of the user, for example by already filling in forms or offering advertisements or vacancies that match the (search) profile of the user.

So as you can see it is useful to use cookies. But if you object to the use of cookies you can remove them yourself from your PC (for more information see for example: <https://www.consumentenbond.nl/internet-privacy/cookies-verwijderen>) or via the privacy settings of your mobile device.
